

Wedding Packages

Congratulations on your forthcoming wedding!

It's an exciting time but we all know it can be a bit stressful and nowadays certainly a costly experience. The good news for you is that I disagree with the huge expense of weddings and whilst remaining professional I should be able to reduce some of the associated stress as well.

Choosing a photographer for a wedding is a difficult task; so I shall not try and convince you that I am better or smarter than other photographers, nor can I turn rain into sunshine for your special day; however, if you are looking for a relaxed, personal touch to your wedding, whilst ensuring that things stay organised enough to obtain the key photos you desire then we are both seeking the same goal.

Before the wedding, I will meet with you for an initial free consultation at either your home or in an environment that you feel most comfortable. We will have time to get to know each other, ensure any specific requirements are discussed and to generally plan the photographs and photographic style you are looking for.

If you choose to go ahead, then, in all cases; I ask for a £100 non refundable deposit to hold the date and the balanced paid for the selected plan within thirty days of the ceremony.

Below are the key packages that are offered; however, if they do not meet your specific needs then please discuss with me, as this is your day and I will be as flexible as needed in order to fit in with your ideas.
